#### Benefits of PC

#### Service Availability:

We have experienced and well-trained service engineers to provide you timely service so that downtime of the machine has been reduced and productivity is increased.

**Spares Availability:**

Spares are available in our branch office to provide spares in time apart from that the machine's parts are top brand Indian parts everyone can buy spares from their nearest market. In turn, it reduces the downtime of the machine.

**Value:**

Our machine has excellent resale value even after 5 Years

**Warranty:**

The machine covers a warranty of one year which you can understand the manufacturer's confident over the machine.

**Durability:**

This machine is made of the rugged frame structure of weight about 1800 kgs gives less vibration and less noise and gives excellent operating environment. more overall parts are indigenous Indexing gearbox (made in India) gives accurate positioning and timing which helps as to produce consistent quality even after 3 years of operation which has a life of 10 years under proper maintenance Motor: Top brand India motor of five star rating Wearing Parts: All sliding and moving parts are heat treated and hardened Which adds high life machine and quality in production it also increases the life of the machine.

**Special Features PLC:**

The paper cup shaping machine, PC is based on Program logic control Technology (PLC) with an advanced technology. because of the use of PLC complication in electrical is very much PC delivers a host of engineering innovations to ensure reliable economical, high-speed Performance.

**Mode of Operation:** The machine has two modes of operation 1.Auto Mode 2. Manual Mode

**Auto Sensor:** Operation In the machine is monitored an Automatic Sensor Control System which stops the machine when cup not released, wallpaper not present bottom paper not available the sensor sends the signal and stops the machine at once.

**Auto Stop:** In the event of any malfunction during the manufacturing process of forming cups, the machine will automatically switch off. this special system ensures the long life for the spares of the machine and minimizes paper wastage.

**Advantages:**

- 100% Indian Machine with Indian Spares & Components
- Based on Advanced PLC (Program Logic Control) Technology
- Spares available anywhere in India
- Wide Network of Experienced Service Engineers very low downtime
- Rugged frame structure weighing 1800 kg's
- Sensor-based cut off System to Reduce wastage & Increase Life Span
- Automatic & Manual Modes of Operation
- The machine is customizable for either single or three phase power supply
