Machine description:

This type paper cup machine advantages:High Performance, High Efficiency , High Quality

1.This paper cup machine packing size only 2100 x 1100 x 1700 mm. **20GP container can loading 6 sets,40HQ container can loading 12sets.**Greatly reduce the transportation cost, is the ideal equipment for the production of small cup.

2.High production speed, making cup speed can be **70-90pcs/min, stable operation at 85pcs/min**, cost-effective than similar products.

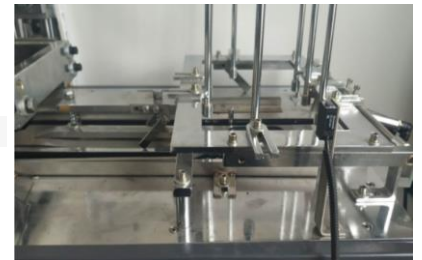

3. Aluminum disc indexing adopts **open cam**, maintenance and lubrication is more convenient and simple than gear box divider, the space of transmission parts in the machine is large, and it is easy to operate and maintain. It is superior to similar products on the market in all aspects, and can replace similar models on the market.

Machine description:

1.Three times paper feeding

Paper can be well adjusted with three times feeding process, avoid the irregularity during folding paper fan.

2.Sensor System

Encoder and the sensor control the machine at the same time, one paper fan match one bottom, no waste.
Failure warning, machine stopped automatically.

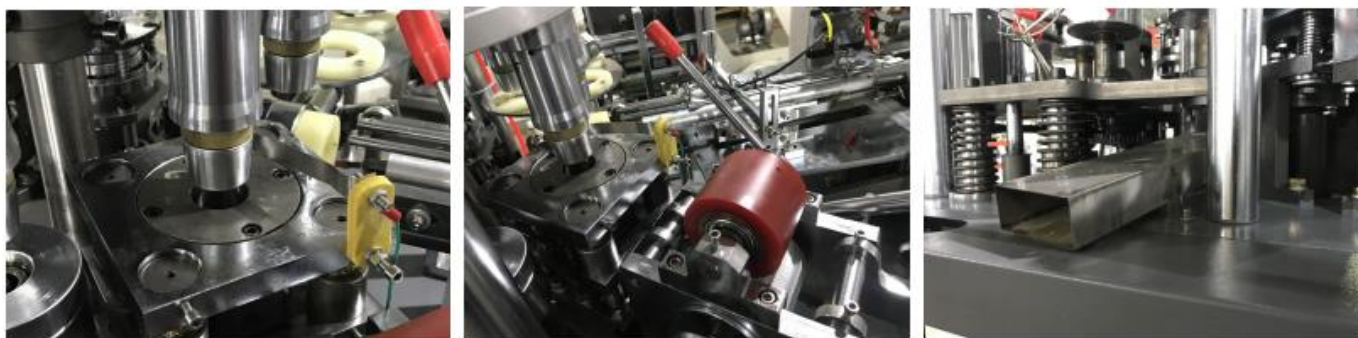

3. Self-lubrication system.

Maintaining oil go to machine every part needed, no need worker spraying oil manually.

4. Bottom Cutting

When give the bottom paper, sometimes the bottom paper will be turned over, cannot match the paper fan well, this machine shorten the process, give bottom directly, avoid the problem.

Optional tips:

1. Ultrasonic

If you need double PE coated paper cups or paper gram higher than 250g/m², we recommend to use Ultrasonic paper cup machine. It can produce single PE coated paper cups and double PE coated paper cups.

2. Collection table:

Collection table can collect cup automatically, no need labor to count the cups one by one.

Assumptions and Facts

(I) In the projection stated here we have stated the maximum expense and the minimum profit that the owner can is likely to get in the toughest circumstances.

(II) The profit will increase remarkably if the owner runs more than one machine as fixed costs gets divided and viable costs have more weight-age.

(III) The projections would be true only if one is able to run the machine continuously.

(IV) The rate of Fabrics and Bag are the Standard Rate prevailing in the market of India, at present. It is however subjected to change due to fluctuating market conditions.
